

## X-Charge™

### ***When processing credit cards, would it help if your counter staff could reduce checkout times and eliminate errors?***

Now, right within TireMaster, your counter staff can process major credit cards quickly, easily, and without error. With integrated credit card processing by X-Charge™, TireMaster can process credit and debit cards, and deposit the funds directly into your existing bank account for you. You no longer need to purchase and maintain outdated credit card terminals and printers, and you'll speed up transactions at the counter.

As you complete an invoice, simply swipe your customer's credit card and let TireMaster do the rest. The card type, account number, and customer name are entered into TireMaster instantly. With X-Charge, you send your customer home with a single receipt and quick approval time; furthermore, you reduce your processing fees, counter-sales time, and auditing work.

Customers love it because credit cards can be approved in as little as two seconds, and payment information is shown on the same receipt as the items sold.

#### *TireMaster and X-Charge help you:*

- Reduce errors by eliminating manual data entry
- Speed up counter sales and checkout times
- Lower your card processing fees
- Increase customer satisfaction

For more information about integrated card processing with X-Charge and TireMaster, call **800-657-6409**, email [info@asatire.com](mailto:info@asatire.com), or visit [www.tiremaster.com](http://www.tiremaster.com).

*"With X-Charge, I've  
reduced customer  
checkout time, and  
saved myself the  
headache of manual  
data entry."*
